Drum Tap Vented (20L Red Top Opening Tap)

**LENSKLEAR HEADLIGHT RESTORATION**

Gone are the days where restoring a headlight meant 2-3 grades of sandpaper, cutting compounds, buff machines and at least 45 minutes. Lensklear is the future headlight restoration with no effort required and cutting time down to two minutes flat, making it a perfect revenue raiser for roadworthy mechanics and even hand car washes.

One Lensklear kit is made up of three wipes. Two cleaning wipes (one for each lens) and one UV coating wipe. The cleaning wipe is used to de-oxidise, remove road grime and extract all yellowing from the plastic.

Lensklear Headlight Restoration Wipes

Plastic Seat Covers (Box or Roll/250)

**WHAT IS CARBON COAT**

Carbon Coat represents latest in Vehicle Surface Coatings. The key features are our state of the art Nano Technology and the addition of Silicon Carbide within our formula. The Nano Technology within Carbon Coat provides its hydrophobic properties and superior bonding of the solution down to a molecular level. This in turn allows Carbon Coat to fill all microfine imperfections within the paintwork, therefore reducing light refraction and creating a undistorted and unmatched gloss to the paintwork in a single application.

Carbon Coat Products

Carbon- Fast Cut Liquid Ceramic Compound

Carbon - Ultra Fine Ceramic Surface Coating

**TRISOL REMOVER**

Trisol is a blend of powerful solvents that remove a wide variety of contaminants from Transit Waxes, Glues, Bitumen and greases.

Trisol Bug, Tar, Glue & Wax Remover

**GOLD WASH**

Gold Wash, formerly Bulldog Gold, is a highly active, solvent fortified car and truck wash that is used either by hand washing or through automatic or self serve car washes.

Gold Wash - highly active, solvent fortified car wash

Blizzard Snow Foam 1000L

**BLIZZARD SNOW FOAM**

Blizzard is the latest generation in vehicle washing that combines real cleaning power with a low pH formulation. Designed specifically for application through a Foam Canon to create a thick blanket of cleaning foam over the entire vehicle.

**PRESOLVE**

Presolve is a highly refined, quick drying and non residual solvent primarily used for thorough pre-cleaning of car panels prior to painting or polishing.

Presolve - Prep-wash Solvent

**BULLDOG BLUE TRUCK WASH**

Bulldog Blue is a traditional BLUE truck wash gel which has a neutral pH, is high foaming and very economical in use. We have added Coconut Oil to the formula to provide extra shine to the vehicle. Smells great to.

Bulldog Blue truck wash

Carbon Aqua Nono Kote

**AQUA KOTE NANO CERAMIC SEALANT**

Advanced polymers create a high performance coating with superior water repellency, UV protection, ultra high gloss and a silky finish that is truly unmatched.
